Professional Summary

Associate Software Developer with experience in C++ development for payment terminal devices. Work includes implementing software features, collaborating with clients to understand requirements, and delivering client-specific software solutions. Experienced in software troubleshooting, debugging, and log analysis, with an interest in developing reliable device software.

Professional Experience

Associate Software Developer
Aurus Inc.

- Develop and enhance C++ software for payment terminal devices, implementing features based on client-specific requirements.
- Collaborate with clients to understand their requirements and contribute to suitable software solutions.
- Support integration between payment terminal applications and external systems to meet project requirements.
- Investigate software issues through debugging and log analysis to understand application behaviour and identify potential root causes.
- Implement application enhancements and device-specific functionality based on project needs.

Technical Skills

Programming Languages: C++, C, Java

Software Development: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Debugging, Log Analysis

Web Technologies: HTML, CSS, JavaScript

Database: MySQL, SQL, Database Management Systems (DBMS)

Tools and Version Control: Git, GitHub, Visual Studio Code

Projects

C++ Log Analyzer

- Developed a C++ utility to parse and analyze log files.
- Used STL containers, including `map` and `vector`, to organize and process log data.
- Extracted information such as error frequency, timestamps, and recurring log patterns.

SavePlate – Food Waste Reduction Platform

- Developed a responsive web application using HTML, CSS, and JavaScript to support local food waste reduction.
- Designed role-based dashboards for vendors, volunteers, and administrators.
- Built user interface components with an emphasis on usability and straightforward navigation.

Internships

Frontend Web Developer Intern
Bharat Intern

- Developed website pages and responsive user interface elements using HTML, CSS, and JavaScript.
- Organized frontend code to support readability and maintainability.

Education

Baderia Global Engineering College, Jabalpur
Bachelor of Technology (B.Tech)
CGPA: 7.81

Rachana Memorial Higher Secondary School, Darshani
Class XII – Madhya Pradesh Board
Percentage: 86.6%

Rachana Memorial Higher Secondary School, Darshani
Class X – Madhya Pradesh Board
Percentage: 86.6%

Achievements

- Solved 100+ problems on LeetCode.
- Participated in Smart India Hackathon.
- Participated in college-level technical fest events.

Additional Information
